Building Over-the-Rhine Community Housing's Future

Revitalizing and expanding this community resource will position OTR Community Housing to meet the growing need for affordable housing and supportive services.

Affordable housing options are dwindling at an increasing rate, directly impacting low-income residents. You can help keep housing affordable in OTR.

THE GOAL

- **Create accessibility** throughout the Service Center so we can serve everyone with dignity
- **Expand holistic supportive services** to support 342 more residents by 2020, and even more in the future
- **Increase capacity and efficiency** to accommodate our organization's growth

WHY IT MATTERS

OTR Community Housing is committed to addressing the unique needs of the community and placing people first.

- Provides a vital resource for families with low-incomes in the prevention of homelessness and unsafe housing
- Offers supportive services to help residents pursue self-identified goals to achieve stability
- Provides essential support for small businesses and creative entrepreneurs
- Addresses equity issues to make OTR a community of opportunity for all
