

OTR CH COMMUNITY HOUSING

presents

12th Annual Fundraising Dinner and Awards Event

CELEBRATING OUR BELOVED COMMUNITY: **ROOTED**

WHEN

Thursday, September 26, 2019
5:30-8:00pm

WHERE

Music Hall Ballroom
1241 Elm Street

Our mission: We develop and manage resident-centered affordable housing to build inclusive community and benefit low-income residents.

For over 40 years, Over-the-Rhine Community Housing has provided the Property Development, Property Management, Resident Services and Tenant Advocacy that enable the vibrant, diverse community that we're all a part of today. With support from our donors like you, we met the housing needs of 850 low-income individuals and families in 2018. There is still work to be done. Affordable housing must be prioritized to ensure that OTR remains equitable.

Each year we gather with over 300 of our dearest friends, partners and supporters at *Celebrating Our Beloved Community*, a fundraising and awards dinner honoring the many varied voices that make up our beloved community.

We're excited to share our theme for 2019's event: *Rooted*. Through this theme we will explore the depth of our organization's roots and the roots of the individuals, businesses, and organizations who have called Over-the-Rhine home for generations. Guests will hear stories that elevate the value of being rooted in such a vibrant and diverse community and organization. This year we will present the 'Building Our Beloved Community' awards to Peaslee Neighborhood Center, the Greater Cincinnati Homeless Coalition, and Bonnie Neumeier in recognition of their contributions to our mission.

Celebrating Our Beloved Community offers multiple opportunities for sponsor recognition. This is an excellent opportunity to show that your company supports equitable community development efforts that positively impact our community's most vulnerable residents. **Your support for this event will provide stable, safe, affordable housing and supportive services to low-income individuals and families in our community.**
